

PRODUCT DESCRIPTION

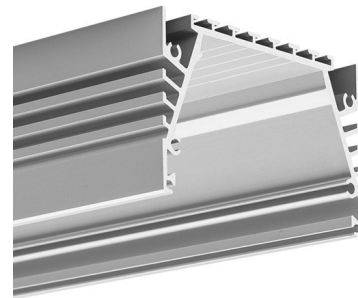

SEPOD – a basic extrusion used to build suspended or surface mounted fixtures.

Patent Number: US D775,409 S

- High luminous efficiency
- Ability to create a line of light
- Easy mounting with numerous methods
- Can be combined into straight and broken linear runs

FINISH :

Silver anodized

Fill empty fields

TECHNICAL SPECIFICATION

Application

- high performance, main lighting installation
- construction of surface mount or suspended lighting fixtures as main and work lighting (corridors, halls, workshops, ballrooms, etc.)

Assembly

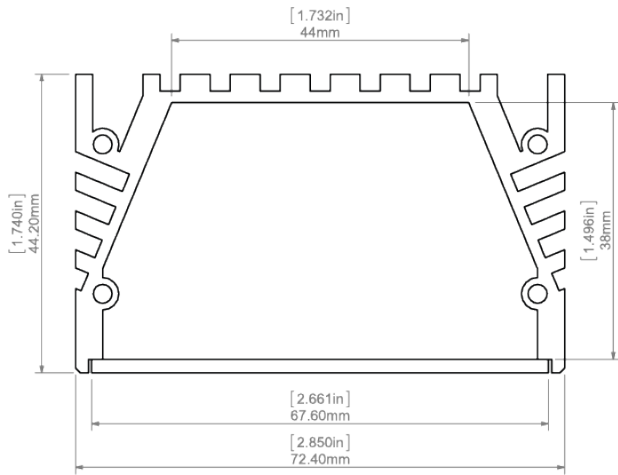

- o build suspended fixtures you can use DP fasteners, drywall fasteners or ready-made KLUŚ fastening kits. To surface mount the SEPOD extrusion you can use GP surface springs, KMA groove springs or the TESPO mounting track

Additional information

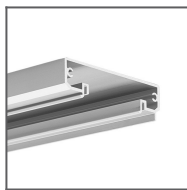

- can be fitted with several different types of covers

Turn off LED lights during peak day light hours in outdoor applications to avoid excessive heat buildup which will result in diminished LED life.
