

Parts needed to assemble and mount the FI-10-H-W fastener

Head (B)

Mounting bracket (A)

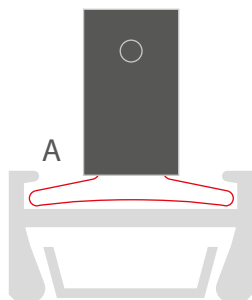

Tools needed for mounting:

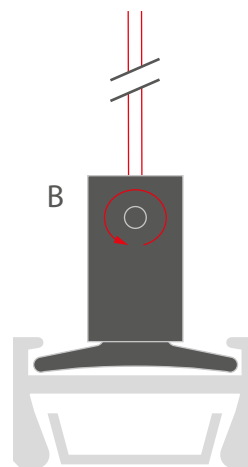

- Allen wrench

NOTE! A list of products that can be used with the selected accessories is available at klusdesign.eu

1. Insert the mounting bracket into the back of the profile.

2. Insert the rod into the head (B). Lock it by turning the pressure screw of the head with the Allen wrench.

3. Mount the lighting fixture on the chosen mounting system.
